

IMAGE SKINCARE NOW STOCKED IN RENEW MEDICA CLINICS

Image Skincare, one of America's most popular professional skincare ranges from the US, is pleased to announce its first UK stockist, Renew Medica Clinics. Renew Medica Clinics specialise in offering a range of proven, safe, highly successful Medical Aesthetics services across London and the Southeast. The first location to stock the range will be the Windsor Clinic, with more rolling out in 2010.

Results from the Image Skincare therapist training has proven very successful - Renew Medica therapist Barbara Fontana says: *"I think Image Skincare products are absolutely fabulous and cannot wait to try them on my clients and witness results. I was really surprised by the effects of the Vital C enzyme peel on my face. After coming home last night my skin started to peel like a snake and this morning it looks very radiant and healthy. I tried many peels in my long career as a beauty therapist but I had never experienced such a relaxing treatment with such outstanding results."*

Image skincare harnesses the most scientifically advanced formulas in today's marketplace to create pharmaceutical grade skincare products that give therapists, physicians and aestheticians the ability to offer professional treatments and products that yield unparalleled results. It is formulated without the use of parabens, petrochemicals and synthetic fragrances.
